

Darshitkumar Gohel

Cost Control & Contracts | Procurement | EPCC & Energy Projects | BESS & Renewables

Mobile: +43 677 617 03123 | Email: er.darshit7@gmail.com | LinkedIn: linkedin.com/in/darshitgohel | Portfolio: aimlds7.github.io | GitHub: github.com/AIMLDS7 | Location: Wels, Austria (Open to Relocation) | Nationality: Indian | DOB: 29 July 1994 | Visa: Aufenthaltsbewilligung

Professional Summary

Cost and Contracts professional with 7+ years of progressive EPCC experience on international energy and infrastructure projects, including direct employment with Samsung C&T Corporation on the Fujairah F3 2,400 MW Combined-Cycle Gas Power Plant (AED 4.2B, UAE). Full commercial lifecycle expertise across quantity estimation, tendering, procurement, contract administration, bank guarantee management, variation orders, EOT and Force Majeure claims, cost control, cashflow management, and commercial close-out — administered in SAP MM with WBS/CBS cost coding within Tier-1 EPC environments. M.Sc. in Sustainable Energy Systems with hands-on experience in BESS, electricity market analysis, power system optimisation, and ML-based energy forecasting using Python, MATLAB, GAMS, PVsyst, and DlgSILENT Power Factory. Available immediately.

Key Competencies

- End-to-End Procurement | Techno-Commercial Bid Evaluation | Vendor Prequalification & Contract Award
- Bank Guarantee Management | Contract Administration | Variation & Change Order Management
- EOT & Force Majeure Claims | Prolonged Stay & Equitable Adjustment | Commercial Close-out
- Cost Control & EVM | Cashflow Forecasting & CAPEX | WBS Cost Allocation & Budget Variance
- Quantity Estimation & BOQ | BESS & PV Commercial Modelling

Experience

BESS Business Development Support (Student Trainee) - Enery Österreich GmbH (Jan 2025 – Jul 2025)

Vienna, Austria | Sector: Renewable Energy / BESS | Markets: AT, BE, BG, CH, CZ, DE, DK, EE, ES, FI, FR, GR, LT, LV, NL, PL, PT, RO, SE, SK

- Processed and analysed BESS and renewable energy datasets (SCADA, time-series) using Python and Excel for project evaluation and market analysis
- Built automated data workflows for merging, cleaning, and aggregating high-volume operational datasets into hourly, monthly, and yearly summaries
- Developed analytical tools for battery operational assessment and electricity market analysis
- Prepared technical reports, internal documentation, and presentations; coordinated with internal teams, academic partners (Montanuniversität Leoben), and external stakeholders
- Tools: Python, Pandas, LightGBM, LSTM, Plotly, ENTSO-E API, Advanced Excel

Assistant Manager – Cost & Contracts - Tata Consulting Engineers Ltd. (Feb 2023 – Sep 2023)

Mumbai/Navi Mumbai, India | PMC Role | Client: CIDCO | Project: Mass Housing – 21,000 Dwelling Units

- Scrutinised, certified, and processed contractor Running Account bills — Progressive, Price Variation, and GFC reconciliation — verifying against contractual terms and site conditions
- Compiled EOT claim packs with programme analysis, delay narratives, and cost substantiation for client board submission
- Produced weekly and monthly cost reports tracking expenditure, certified amounts, and pending claims
- Maintained bank guarantee register and monitored expiry across all packages

Assistant Cost Manager – Civil - Gleeds Consulting (Sep 2022 – Jan 2023)

PAN India | Cost Consultancy | Client: IHCL (Ginger Hotels)

- Prepared BOQs and detailed cost estimates for civil and interior packages across multi-site hotel refurbishments
- Managed full tendering cycle from RFQ to contract award — vendor identification, techno-commercial comparative analysis, pre-bid clarifications, and negotiation
- Administered SAP Work Orders, Purchase Orders, and Service Agreements from award through post-contract administration
- Verified, certified, and processed contractor invoices in SAP; maintained cost tracking registers with budget variance analysis
- Prepared weekly and monthly cost reports; conducted quantity estimation for civil and finishing items

Project Controls Assistant Engineer - Samsung C&T Corporation (Sep 2020 – Sep 2022)

Fujairah, UAE | EPCC | Client: FEWA / GCC Interconnection Authority Project: F3 IPP – 2,400 MW Combined-Cycle Gas Power Plant (~USD 977M | 3 GT + 2 ST)

- End-to-end budget reporting across CAPEX and OPEX — tracking commitments, expenditures, and forecasts against WBS
- Quantified contract variations and prepared cost impact assessments; reconciled estimation against actual site progress
- Prepared EOT claims with comparative statements and contemporary records
- Scrutinised and certified contractor progressive bills per contract terms and site conditions
- Prepared debit notes against defaulting contractors for claims and liquidated damages recovery
- Maintained cost tracking registers; prepared monthly and weekly cost reports and manpower cost forecasts

Junior Procurement Engineer - Samsung C&T Corporation (Nov 2018 – Jun 2020)

BKC, Mumbai | Client: Reliance Industries Limited Project: Jio World Centre – Mixed-Use Development (~USD 2.2B | 18.5 Acres, 8.7M sq.ft., LEED Platinum)

- Prepared Tender/RFP documentation incorporating inputs from consultants, design, execution, and client stakeholders
- Vendor/subcontractor identification, sourcing, prequalification, and technical evaluation for contract award

- Conducted detailed techno-commercial comparative analysis with weighted technical parameter scoring
- Led pre-bid meetings, issued addenda, and conducted techno-commercial negotiations
- Prepared, awarded, and administered Subcontract Agreements, Service Agreements, and Purchase Orders
- Reviewed and finalised JV/Consortium agreements, NDAs, and Letters of Acceptance
- Prepared contract amendments for scope changes, quantity variations, and EOT
- Prepared Notes for Approval (NFA) for RIL approval letters for subcontract, service, and PO documentation
- Tracked critical delivery schedules for long-lead and site-critical materials
- Accurate cost allocation per approved WBS; prepared monthly and weekly cost reports

Quantity Surveyor / Billing Engineer - Shree Balaji Construction / Aarav Buildcons / Jain Engineers (Jun 2016 – Sep 2018)

Mumbai Metropolitan Region Projects: Vinayak Heights, Integrated Arcade, Integrated Ahana, Malvani Project, Xrbia Township, Wadhwa Wise City Entrance Gate

- Prepared preliminary cost estimates across 6 projects for feasibility decisions; calculated quantities from engineering drawings using AutoCAD and MS Excel
- Conducted rate analysis and compiled BOQ at tender stage
- Managed civil works execution across residential towers and township developments; enforced quality control protocols
- Scrutinised and certified contractor progressive bills; prepared debit notes and advised on liquidated damages recovery
- Delivered weekly and monthly cost reports; reconciled materials issued vs. consumed against standard quantity norms

Education

M.Sc. Sustainable Energy Systems - FH Oberösterreich, Wels, Austria

Relevant Modules: Scientific Programming with Python, Data Analysis, Large-Scale Solar & Wind Power Plants, Energy Project Development, Grid Integration of Renewables, Battery Technology, Electrical Energy Engineering, Energy Markets and Policy, Operations Research for Energy Systems, E-Mobility, Control Engineering, Applied Statistics

B.E. Civil Engineering - Savitribai Phule Pune University

First Class with Distinction

Technical Skills

Procurement & Tendering: End-to-End RFQ/ITB/RFP, Vendor Prequalification, Techno-Commercial Evaluation, Weighted Scoring, Pre-Bid Meetings, Addenda Management, Negotiation & Contract Award, Subcontract/PO/SA Preparation, Bank Guarantee Management, SAP Procurement Workflow

Contract Management: LSTK/Lump-Sum Contracts, Subcontract & Service Agreement Drafting, JV/Consortium Agreement Review, Variation Quantification, EOT Claims, Force Majeure, Prolonged Stay,

Change Order Processing, Claim Settlement, Commercial Close-Out

Cost Control & Quantity Estimation: EVM, WBS/CBS Cost Coding, Cost-at-Completion Forecasting, Rolling Forecasts, Budget Variance Analysis, Cash Flow Management, CAPEX Planning, BOQ Preparation, Quantity Take-Offs (AutoCAD), MTO Verification, Progressive Bill & Invoice Certification, SAP Invoice Processing, Price Variation Bills, Monthly Manhours Tracking

ERP / Software: SAP MM (Proficient), MS Excel (Complex Models, Macros, Pivot Tables), Microsoft Power BI (Certified), MS Project, AutoCAD, ETABS, MATLAB, GAMS, PVsyst, PV Case, PV Sol, WindPRO, DIgSILENT Power Factory

Programming: Python (Pandas, NumPy, Plotly, Matplotlib, LightGBM, LSTM, Jupyter), MATLAB, GAMS, ENTSO-E API, Automated Data Pipelines

Energy / BESS: BESS Feasibility & Dispatch Modelling, Battery Dispatch Optimisation, EU Balancing Markets (FCR/aFRR/mFRR), PV System Design & Techno-Economic Evaluation, Large-Scale PV & Wind Plant Engineering, Grid Integration, Grid Studies (DIgSILENT), ML-Based Energy Forecasting

Certifications

- McKinsey Forward Program – McKinsey & Company (2025)
- Microsoft Power BI Data Analyst – Microsoft (2024)
- MATLAB Onramp & Simulink Onramp – MathWorks (2024)
- Public Procurement – World Bank (2020)
- Infrastructure Planning – IIT Madras / NPTEL (2019)
- Emergency Evacuation Coordinator (HSE) – Samsung C&T UAE (2020)
